

# **DISCRETE OPTIMIZATION**

*The Journal of Combinatorial Operations Research*

**DISCRETE OPTIMIZATION**, a new addition to the **DISCRETE MATHEMATICS** and **DISCRETE APPLIED MATHEMATICS** family of journals published by Elsevier, will be launched in the summer of 2004.

The new journal will publish research papers on the mathematical, computational and applied aspects of all areas of integer programming and combinatorial optimization. In addition to reports on foundational and algorithmic theory of discrete optimization, the journal welcomes submissions on experimental and computational discrete optimization, and on novel applications (in particular, large-scale and real-time applications). The journal also publishes clearly labeled surveys, reviews, short notes, and open problems.

Manuscripts submitted for possible publication to **DISCRETE OPTIMIZATION** should report on original research, should not have been previously published, and should not be under consideration for publication by any other journal. Submissions should be sent to Mr. Scott Alessi, Editorial Manager, preferably electronically to [editor@rutcor.rutgers.edu](mailto:editor@rutcor.rutgers.edu); if electronic submission is not possible, 4 copies of the manuscripts should be sent by mail to Mr. Scott Alessi, RUTCOR, Rutgers University, 640 Bartholomew Road, Piscataway, NJ 08854, USA.
